At the August 16th meeting the Board approved changes to its rules. The substantive changes include:

- **CPA Exam** – would move from limiting candidates to one section per testing window to unlimited testing per window, as long as the score from the previous exam has been received for that particular section.

- **CPE Nano learning** – would allow up to 4 hours of CPE credit (nano learning is CPE taken in ten-minute increments).

- **CPE content requirement** – would reduce the requirement that 50% of CPE (20 hours per year) be met through courses in Accounting & Auditing, Tax, or Ethics to 40% for those working in public accounting and to 20% for those who do not work in public accounting.

- **CPE Group Study requirement** – would reduce the group study requirement from 40% to 20% (16 hours to 8 hours per year).

- **Quality review** – would update rules surrounding Quality review for impact of the Peer Review requirement that became effective January 1, 2019.

- **Prelicensure Criminal Background Petition** – would create a process for individuals to petition the Board for a determination as to whether their criminal record would disqualify them from licensure or if they would be eligible to obtain a waiver from the Board.

The proposed changes are in draft form and are currently being reviewed by the Governor’s office. Once approved we will notify all licensees by email and post a link to the proposed changes to our website. The Board welcomes all feedback on these changes.
2019 BOARD MEETING SCHEDULE

ASBPA OFFICE CLOSED

In accordance with the schedule adopted by the State of Arkansas, the Board office will be closed on the following dates:

- November 28-29: Thanksgiving
- December 24-25: Christmas
- January 1: New Year’s Day

DIVERSITY OF ACCOUNTING STUDENTS UP

The AICPA reports that in the 2017-2018 academic year, racial/ethnic diversity among accounting graduates has increased, including a 7 percentage point rise in the number of Hispanic or Latino accounting graduates.

2018 ACCOUNTING TRENDS

- 53% Women Earned Master’s Degrees
- 7% increase in Hispanic/Latino accounting graduates
- 23,941 Candidates passed the fourth section of the CPA Exam

2019 Trends in the Supply of Accounting Graduates and the Demand for Public Accounting Recruits has been released by the AICPA https://www.aicpa.org/content/dam/aicpa/interestareas/accountingeducation/newsandpublications/downloadabledocuments/2019-trends-report.pdf. Those designating themselves as “white” in 2018 remain the largest percentage of new bachelor’s and master’s of accounting graduates (58 percent), followed by “Asian/Pacific Islanders” at 16 percent. In 2017-18 there was an equal percentage by gender of new accounting graduates with bachelor’s degrees, while women accounted for 53 percent of the master’s degree graduates in that year.

While there was a significant increase in the number of CPA Examination candidates in 2016, in 2018 the number fell to its lowest level in 10 years, 36,827. However, the number of CPA candidates who passed their fourth section of the Uniform CPA Examination in 2018 was 23,941, while in 2006 only 14,101 passed their fourth part.

Yvonne Hinson, the AICPA’s Academic-in-Residence, points out: “Across the last two Trends reports, we have experienced an approximate 30 percent decline in hiring of new accounting graduates. The marketplace continues to demand different competencies and, while accounting graduates are still being hired, firms are seeking other skill sets to expand services. We are seeing that the gap in skill required in the profession, especially as it relates to technology needs, is being met with non-accounting graduates.”

RESPONSIBLE LICENSING MATTERS

Alliance for Responsible Professional Licensing (ARPL) Launches

In this era of rollback of regulations or even deregulation of occupations and professions, much talk has turned to the necessity of licensing professions. After all, the US was founded on individual freedoms, including freedom to earn a living. So why should you care about this?

The CPA profession, and your counterparts around the globe, are responsible for the fiscal integrity of the financial systems throughout the world. You hold a high level of public trust and influence in the financial arena. As we have seen in the past, when a CPA fails to perform, it has a lasting ripple effect.

Responsible licensing of highly complex and technical professions protects the public by ensuring licensees have met minimum competency requirements and maintain those competencies through CPE, which protects consumers from unqualified practitioners in areas where consumers do not have the expertise needed to evaluate the practitioner’s qualifications and performance. CPA initial licensing and maintenance is rigorous for a reason. Responsible licensing allows all qualified individuals to enter the profession without artificial deterrents but ensure public protection.

CPA regulation in the US has made great strides in eliminating unnecessary barriers to entry into the profession. Individual and firm mobility allows qualified practitioners to practice across state lines. Reciprocity of licensure and CPE reciprocity allows easy flow of licensing from one jurisdiction to another. Unfortunately, these accomplishments have not removed the CPAs from the broad-brush approach to deregulation of occupations and professions.

The National Association of State Boards of Accountancy (NASBA), of which the Arkansas Board of Accountancy is a member, has joined with other regulatory associations of highly complex technical professions (architect, landscape architects, professional engineers and professional surveyors) to create the Alliance for Responsible Professional Licensing (ARPL). ARPL was created to ensure that a unified voice for advanced professions is present and heard in the growing debate around the appropriate level of licensure for professions and occupations. Visit their website to learn more about ARPL and their efforts to promote a responsible, balanced approach to professional licensing. Talk to your local legislator and stay involved. Help maintain public protection in the practice of public accounting.
