RULE 17. TOWING, RECOVERING, AND STORING ELECTRIC VEHICLES

17.1 TOWING AUTHORIZATION

(a) A duly licensed tow business in good standing may perform EV towing services and EV storage services.

(b) The Board recommends that all EV towing services and EV storage services be performed according to the guidelines contained in Rules 17.3, 17.4, and 17.6 of this Rule 17.

17.2 DISCIPLINARY ACTION

(a)(1) The failure to comply with all applicable local, state, and federal laws and accepted standards for a tow business operating in the State of Arkansas for towing, recovering, or storing an EV may result in a fine, restitution, suspension or revocation of a license, and any other action authorized by Arkansas Code § 27-50-1201 et seq. and the rules of the Board.

(2)(A) A second and any subsequent failure to comply with all applicable local, state, and federal laws and accepted standards for a tow business operating in the State of Arkansas for towing, recovering, or storing an EV in any consecutive twelve- month period shall result in the immediate suspension of an applicable EV towing endorsement or EV storage endorsement, or both, followed by a prompt hearing before the Board.

(B) At the hearing the Board may impose any additional penalty authorized by Arkansas Code § 27-50-1201 et seq. and the rules of the Board, including without limitation a fine, restitution, and the continued suspension or revocation of an EV towing endorsement or EV storage endorsement.

(b) Except as provided in Rule 17.7, nothing in this Rule 17:

(1) Relieves the tow business engaging in the original tow from the obligation to provide notice to a vehicle owner or lienholder in accordance with Arkansas Code § 27-50-1201 et seq. and the rules of the Board; or

(2) Prevents a tow business’s right to execute a possessory lien when the standard for doing so has been met.

17.3 GUIDELINES FOR PERFORMING EV TOWING SERVICES

(a)(1) Prior to performing an EV towing service a tow business should obtain an EV assessment.

(2) If during the performance of EV towing services anything occurs that might reasonably change the EV assessment an additional EV assessment should be obtained.

(3) All EV towing services should be performed in accordance with the most recent EV assessment.

(b)(1) The tow business:

(A) Should maintain a record of all EV assessments for two (2) years and provide a copy of the most recent EV assessment to:

(i) The person, if any, the tow business uses to provide EV storage services; and

(ii) Any other transferee of the EV, including without limitation the EV owner, a lienholder, an insurance provider, a garage or body shop, or another tow business; and

(B) Consents to the release to the Board of all EV assessment records of each of its third-party EV resources.

(2) A sticker or decal indicating the level of the most recent EV assessment should be affixed to the EV at all times during EV towing services and EV storage services.

17.4 GUIDELINES FOR PERFORMING EV STORAGE SERVICES

(a)(1) Prior to performing an EV storage service a tow business should obtain an EV assessment.

(2) If during the performance of EV storage services anything occurs that might reasonably change the EV assessment an additional EV assessment should be obtained.

(3) All EV storage services should be performed in accordance with the most recent EV assessment.

(b)(1) The tow business:

(A) Should maintain a record of all EV assessments for two (2) years and provide a copy of the most recent EV assessment to any transferee, including the owner or lienholder, of the EV; and

(B) Consents to the release to the Board of all EV assessment records of each of its third-party EV resources.

(2) A sticker or decal indicating the level of the most recent EV assessment should be affixed to the EV.

(c)(1) If and only if the most recent EV assessment indicates the EV may not be safely stored in the same manner as a non-EV vehicle, the EV should be stored in a manner that separates the EV from buildings, other vehicles, and combustible materials of any sort by a minimum of fifty feet (50') unless the vehicle is stored in a vehicle isolation bay.

(2) A vehicle isolation bay should be located in an area that is easily accessible by fire equipment and personnel.

(d)(1) Each stored EV should be clearly marked and recognizable as an electric vehicle.

(2) The continued affixation of the EV assessment sticker or decal indicating the level of the most recent EV assessment should comply with subdivision (d)(1) of this Rule 17.4.

(e) A damaged EV should not be stored inside a building unless it is secured in a fully enclosed vehicle isolation bay approved for indoor use.

17.5 INFORMATION AND OTHER RESOURCES

The Board may post on its website or otherwise publish information concerning training opportunities and best practices for providing EV towing services and EV storage services.

17.6 CHAIN OF CUSTODY

(a)(1) Upon release of the EV to another party including without limitation to the EV owner, a lienholder, an insurance provider, a garage or body shop, or another tow business, a copy of the most recent EV assessment and a written or electronic chain of custody record should accompany the EV, signed and dated by the party releasing the EV and the party receiving the EV.

(2) Each party in the chain of custody should maintain a copy of each chain of custody form signed by the party for two (2) years.

(b) The chain of custody form should include:

(1) The name and contact information of the tow business releasing the EV;

(2) The name and contact information of each party receiving the EV;

(3) A description of the EV including the year, make, model, and vehicle identification number of the EV; and

(4) Signature blocks and a place for the date for each person who transfers and each person who receives the EV.

17.7 LIEN RIGHTS AND PROCEDURES

(a)(1) Except as provided in this Rule 17.7, a towing business that performs EV towing services, EV storage services, or both, shall have a first priority possessory lien on the EV, its contents, and any trailer, vehicle, or boat attached to the EV and their contents under Arkansas Code § 27-50-1208.

(2)(A) Upon delivery of a vehicle for EV storage services, a tow business that uses another tow business to provide EV storage services shall accept and the tow business providing EV storage services shall pay the fair market value of the towing services.

(B) Upon the payment described in this subdivision (a)(2) of Rule 17.7, the amount paid shall be transferred to and included in the storage tow business's lien for EV storage services.

(b) The procedures for notice, foreclosure, sale, and disposition of proceeds shall be governed by Arkansas Code §§ 27-50-1208 through 27-50-1210.

17.8 REPORTING EV INCIDENTS TO THE ARKANSAS TOWING & RECOVERY BOARD

(a) Any catastrophic, extraordinary, or noteworthy incident involving the performance of EV towing services or EV storage services, including without limitation an incident involving fire, smoke, damage to property, injury to persons, or necessitating an emergency response, shall be reported to the Director of the Board as quickly as possible, but no later than ten (10) calendar days.

(b)(1) The report shall include:

(A) The location, date, and time the incident occurred;

(B) A written description of the nature of the incident (fire, off-gassing, smoke, damage to property, injury to personnel, etc.)

(C) The name and job title of each tow business personnel onsite or otherwise providing assistance concerning the incident;

(D) If emergency personnel were called and if so, a general description of the emergency responders and the services provided; and

(E) A description of any:

(i) Damage to a tow facility, equipment, or stored vehicles; and

(ii) Injury to any person.

(2) Any police report or accident report that may have been generated as a result of the incident shall be included with the report to the Director.
