

SUMMARY OF PROPOSED AMENDMENTS TO THE ADMINISTRATIVE RULES REGARDING THE BOARD OF ELECTRICAL EXAMINERS

December 8, 2023

Rule 010.13-009 of the Administrative Rules of the Board of Electrical Examiners is amended to reflect changes from Act 318 of 2023 which amended the definitions of “residential journeyman electrician” and “residential master electrician,” and added a definition of dwelling to expand the scope of work for residential electricians from two-family to four-family dwellings, not to include a mixed-use building or other structure that requires commercial grade electric conductors or equipment for any part of the building or other structure.
