HOME IMPROVEMENT Test Information

Carefully read the following information. By signing the application for a license, you are certifying that you have read and that you understand all the information provided in this form.

THE PURPOSE OF THE COMMERCIAL AND RESIDENTIAL LICENSING LAW

- The purpose of licensing is to protect the health, safety, and welfare of the public.
- The law states the requirements to obtain a license or registration, the standards that are required to obtain and maintain a license or registration and provides the authority for the Arkansas Contractors Licensing Board and Arkansas Residential Contractors Committee to hold disciplinary hearings against contractors who do not follow the law.
- The Arkansas Contractors Licensing Board is an agency of the State of Arkansas that regulates the issuance of licenses and registrations for commercial contractors in the State of Arkansas pursuant to Ark. Code Ann. § 17-25-101 through 17-25-315. The Board also regulates the Arkansas State Contractors Bond Law pursuant to Ark. Code Ann. § 17-25-401 through 17-25-409.
- The Arkansas Residential Contractors Committee is an agency of the State of Arkansas that regulates the issuance of licenses for residential building contractors, remodeling contractors and home improvement contractors in the State of Arkansas pursuant to Ark. Code Ann. § 17-25-501 through 17-25-515.

WHO NEEDS A COMMERCIAL LICENSE

- The commercial law is intended to include all improvements, demolition, or structures exempting only single-family residences. Ark. Code Ann. § 17-25-101(c). Single family residences are defined as any project consisting of one but not more than four units constructed for residential occupancy. Any project consisting of five or more units is considered multi-family housing and would be considered a commercial project.
- A commercial contractors license or registration is required when the cost of the work to be done by the contractor including, but not limited to, labor and materials is \$50,000 or more. The commercial law applies to both prime contractors and subcontractors.
- The penalty for acting as a commercial contractor without first being licensed, or registered, is \$100 to \$400 per day, not to exceed 3 percent of the total project being performed by the contractor.
- The Board may revoke the license or registration of a commercial contractor found guilty of fraud or deceit in obtaining a license, for aiding or abetting any contractor or person to violate the provisions of the contractors licensing law, or for gross negligence, incompetence, or misconduct in the conduct of the contractor's business.
- Licensed and registered contractors are required to cooperate with investigations by providing the Board with all relevant information requested. Failure to cooperate or to timely provide the board with relevant information as requested may constitute misconduct and subject the contractor to revocation of the contractor's license or registration.

WHO NEEDS A RESIDENTIAL BUILDER LICENSE OR A HOME IMPROVEMENT LICENSE

- The residential law applies to work done on all single-family residence, defined as any project consisting of one but not more than four units constructed for residential occupancy.
- A residential building contractor is one who acts as a contractor in the construction of a single-family residence or the property and structures appurtenant thereto.
- A home improvement contractor is one who acts as a contractor in the reconstruction, alteration, renovation, repair, modification, improvement, removal, demolition, or addition to any preexisting single-family residence or the property and structures appurtenant thereto.
- A Home Improvement license is required when a contractor performs work over \$2,000, including labor and materials, on a residential project. A "Limited" license limits contractors to projects less than \$50,000. An unlimited license allows the Home Improvement contractor to perform any size project.
- The following are exemptions to the residential builder and home improvement licensing requirements: (1) owners are exempt from licensure when acting as the contractor in the construction of his or her residence unless he or she builds more than one residence during any calendar year (2) owners acting as his or her own home improvement contractor on his or her own property (3) subcontractors working for a properly licensed contractors and (4) contractors licensed by other licensing agencies or boards if the contractor is performing work within the scope of that license.
- The penalty for working as a residential or home improvement contractor without first being licensed is \$100 to \$400 per day.
- The committee may revoke the license of a residential builder or home improvement contractor found guilty of fraud or deceit in obtaining a license, for aiding or abetting any contractor or person to violate the provisions of the contractors licensing law, or for gross negligence, incompetence, or misconduct in the conduct of the contractor's business.
- Licensed or registered contractors are required to cooperate with investigations by providing the committee with all relevant information requested. Failure to cooperate or to timely provide the committee with relevant information as requested may constitute misconduct and subject the contractor to revocation of the contractor's license.

Test Information (continued)

BUILDING CODE

- Arkansas Building Codes are mandatory statewide minimums. They apply statewide even in areas when no permit or inspections are required.
- The Arkansas Building Code is adopted by the State Fire Marshal's office. It is a part of the Fire Prevention Code. The Code applies Statewide, even in rural and unincorporated areas. Arkansas is currently under the 2012 Edition of the Code.
- The Code can be purchased from the International Code Council. The Code can also be purchased from the Arkansas Fire Training Academy Book Store: 870-574-4510.
- Failure to comply with the Building Codes could subject a licensed contractor to disciplinary action by the Arkansas Contractors Board or Residential Contractors Committee.

WORKERS COMPENSATION

- All Residential Builders and Unlimited Home Improvement contractors are required to show proof of workers compensation insurance if they have one or more employees in order to obtain a license. Limited Home Improvement contractors do not.
- Those contractors who are not required to show proof of workers compensation to obtain their license still may be required to obtain it pursuant to the workers compensation laws. According to Ark. Code Ann. § 11-9-102, generally all contractors with at least one employee are required to have workers compensation insurance by the Workers Compensation Commission. Enforcement of this workers compensation requirement is performed by the Workers Compensation Commission.

LIEN LAW

- Every state, including Arkansas, permits a person who supplies labor or materials for a construction project to claim a lien against the improved property. The purpose of the lien is to secure payment for the labor or materials used improving the property. If there is a lien on the improved property, the owner may not be able to sell the property with a clear title and it may be foreclosed in a lawsuit. The property owner can obtain a bond to release the lien.
- **Important Notice to Owner** - A contractor on all residential projects is required to give notice of the potential for a lien to be filed to the owner of a project before the commencement of the work. This notice if given by the prime contractor is good for all subcontractors and suppliers as well.
- If the important notice is not given, (1) potential lien claimants may not enforce a lien on the project and (2) the contractor could be subject to a criminal prosecution.
- **The notice must be given exactly as it is stated in the statutes.** A copy of this notice is available on our website www.arkansas.gov/clb.
- In order to enforce any lien that is filed, it is imperative that you strictly comply with the notices and time frames required in the statutes. It may be necessary to consult an attorney prior to beginning the lien process to ensure that it has been done properly.

CONTRACTS

- The main purpose in contracts is to prevent disputes between parties entering into agreements. While a verbal contract may be enforced, disputes may arise as to the terms of the agreement. Therefore, it is strongly suggested that all contracts be in writing so there will be no questions regarding the terms that were agreed to by both parties.
- All contracts should set out scope of work, compensation, time frames for work and payments. This protects both the homeowner and the contractor.
- Just like the original contract any "change order" that is not in writing may lead to a dispute as to what was agreed upon. For your protection, it is strongly recommended that all change orders be in writing and agreed to by the homeowner and contractor.

FINANCIALS

- All Residential Builders and Unlimited Home Improvement contractors are required to submit a compiled financial statement with their application and renewal application showing a positive net worth excluding the applicant's homestead and retirement accounts. A Limited Home Improvement contractor is not required to submit a balance sheet.
- A "balance sheet" is a financial statement that lists all assets (such as cash, accounts receivable, equipment, etc.) on one side and all liabilities (such as accounts payable, loans, etc.) on the other. If the total dollar value of the assets is more than the total dollar value of the liabilities, then the contractor has a "positive net worth." If, however, the total dollar value of the assets is less than the total dollar value of the liabilities, then the contractor has a "negative net worth."
